

# Status of Dresbach Township Recycling Pilot Program

## What has been accomplished:

Two recycling bins provided by Winona County  
Signage for recycling and trash

Temporary signs indicating appropriate disposal of fish guts

## What is in process:

Trash bins with lids

Install trash bin next to recycling bin on Riverview Dr.

Install Trash signs

Mount more waterproof fish disposal signs

Install three "No Dumping" signs on Oak Hill Road. (Permanent signs take 6 weeks to make)

## Initial Results:

Recycling bin by boat ramp was 40% full after holiday weekend

Recycling bin on Riverview Drive had 2 items on 6/3/16

## Issues:

Mark Grady strongly objects to current placement of bin on Riverview Drive. He states that moving bin on pickup day will interfere with his mail delivery. He's also concerned that the bin will attract bees which will be a problem when he gets his daily mail. He would like it moved one telephone pole to the north.

Thank you to Anne Morse, Winona County Resource Manager, for her significant contributions to the pilot program.
